

SKITTLE RING DIMENSIONS

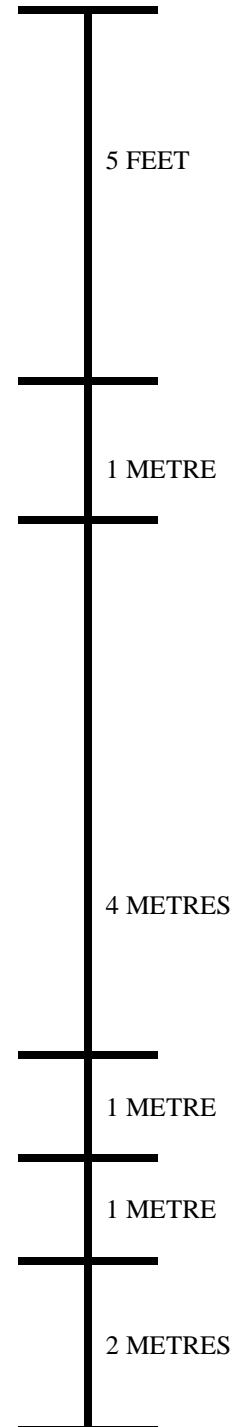

The Ring is 1.5 metres (5 feet) in Diameter

3 metres wide

3 metres wide

For best results the skittle ring must be laid out on a base of concrete (10' long x 8' wide). To ensure the game is played in an enjoyable and safe manner we strongly suggest that the total length required to lay out a skittle pitch is 50 feet. This is made up as follows: 8 feet behind the mens' throw line to ensure spectators are back a safe distance. Length of throw from mens' line to the four is 35 feet. A distance of 7 feet should be left between the ring and the wall behind to ensure the pelters are not continually rolling back into the ring. If a two skittle pitches are to be laid we recommend a distance of 10 feet is maintained between both.
